

Development Project of 6 Pool Villas near Rawai Beach to Take Over

At present, the complex is under construction. The total area extends over the plot of 1 Rai (1,600 sq m) in one of the touristic areas of Phuket Island near Rawai Beach. The complex is situated approximately 600 meters from the pier in Rawai and only 3 km from the most famous and popular beach on the island, Nai Harn beach.

The cost of the business project includes: show-villa unit with 2 bedrooms, the plot of land, an operating company (site owner), project plan for the construction of the villas, marketing recommendations for the launch and the promotion of the project on the market , calculations for the construction of villas with 2,3,4 bedrooms in 1 and also 2 floors (permission granted), calculation of investment from rental rates (or resale of ready-made villas separately) and the list of sub-contractors.

The complex has very big potential, taking into account the cost of construction and the cost of the plot, as well as the location of the complex being in one of the most popular touristic areas in Phuket. Additionally, there are possibilities to change the overall design of the project to an individual taste including construction of a multi-storey complex.

We will be pleased to provide more detailed information and present the project.
