Isn't this a good place to start life in Phuket or to complete life here?

Phuket Life...Take a Swing...With so much uncertainty, one thing is sure, Phuket and Thailand are safe, the Southeast of Thailand is stable and is still one of the fastest-growing economies in Asia, if you're living here, you already know how casual and comfortable living here can be. In Phuket, there is the tourist sector full of hustle and bustle for a few months of the year, and the rest of the time, the "normalcy" of everyday life, give one a safe and secure feeling.

Tell me about the Villa

This home is about 10 years young from completion. A recent renovation has added a unique and spacious "wing" which enlarged the kitchen. It also added a sitting area downstairs. While also adding a private and spacious 3rd bedroom. A guest bedroom if you like, complete with full bathroom amenities, a glorious closet for your needs.

The dining room is adjacent to the kitchen. Blending in is the Living room which is well-lit from a full bank of windows. Just out to the side, one can overlook the triangular-shaped pool. There is a garden area which can take care of your natural hunger. Planting or replanting as needed.

The Twin Master bedrooms and bathrooms mirror each other. Both of the rooms are large, spacious, and share an adjoining balcony. Use the balcony for watching a sunrise. Or simply use it to enjoy a cool afternoon drink. Both Master baths are large and modern.

And finally. Take the last staircase to the upper open floor. The top of this home features a large open area, just waiting for your designer touch. This large open area is there to sun in or take a bar-b-Q or relax and stargaze at night. An extra treat for people with just enough imagination to make it a

unique and private or public entertainment area.
