

Phuket Naiyang Pool Villa

Value and convenience for Sale or Rent

Phuket NaiYang Pool Villa – for a quiet and relaxing location, this is hard to beat! If you're the type of person who's had enough of the hustle and bustle of life. Now, you want to take it down a few notches, then here is my suggestion. Come and see, feel and enjoy such a place as this. From the moment that you walk in, you will feel the peace of this area. This villa location is superb. Many conveniences are nearby including a world-class beach. The northern end of Nai Yang beach is part of Sirinath National Park and thus has no development. There are a few salas (open-sided pavilions) in which to sit in the sun or the rain becomes too much. You will also see the beach has little of the commercial feel that pervades in Patong or Karon. This northern area is a local favorite. Drive through on a weekend, you will see many families, groups of friends or couples having picnic parties in the large shady areas next to

the beach. Many food vendors usually gather along the roadside to prepare all the classic Thai dishes, sweets, drinks, and local fruits. [can you feel it now?]
